What to Do in Glacier and Waterton Lakes Parks

Straddling the main range of the Rockies in northwestern Montana and southern Alberta is the international playground of Glacier and Waterton Lakes Parks. Together they comprise over 1,700 square miles of rugged mountain region of unsurpassed alpine character. There are within this area 250 glacier-fed lakes of romantic beauty, sixty living glaciers, hundreds of peaks, lovely waterfalls and precipices thousands of feet high. This area is famed for the sensational beauty of its mountains and flower-carpeted valleys, as a refuge for wild animals and as a resort where excellent trout fishing, trail riding and all other forms of outdoor life may be enjoyed amid ideal surroundings.

Glacier Park Station on the main line of the Great Northern Railway is the Eastern and principal entrance to the two Parks, and the gateway to Glacier Park Hotel, Two Medicine Chalets, Cut Bank Chalets, St. Mary Chalets, Going-to-the-Sun Chalets, Many Glacier Hotel, Granite Park Chalets, the Prince of Wales Hotel, and the Red Eagle, Fifty Mountain, Goat Haunt and Crossley Lake Camps. On the West Side, Belton is the gateway to Lake McDonald Hotel and Sperry Chalets.

Glacier Park Hotel

The “Big Trees Lodge” as the Blackfeet Indians have so aptly named it, is fashioned out of huge fir trees and immense cedars. The hotel consists of two units, the main building, and an annex containing sleeping accommodations. All the essential comforts of the modern hotel are provided and most of the rooms are arranged en suite. It is the starting point for the interior of Glacier Park and the Prince of Wales Hotel. Daily during the season the Glacier Park Transport Company provides a service with modern buses between Glacier Park Hotel, Many Glacier Hotel, the Prince of Wales Hotel, and intermediate points in connection with the boat service on St. Mary Lake to Going-to-the-Sun Chalets.

Plunge—Indoor swimming pool and shower baths, 50 cents.

Golf Course—Nine holes. Green fees for eighteen holes, including shower bath and use of Putting Green, $1.00 per person.

**General Information**

**All-Expense Tours**

While there is enough to see and do in the international playground to maintain interest for extended periods, the character of this area is such that a traveler, with limited time at his disposal, can see and become familiar with the principal scenic centers and enjoy the most popular side trips in a few days.

For these travelers a series of all-expense tours have been planned which vary from one to six days in length, and which, in their entirety, include all of the various scenic centers. The rates quoted for these tours are per person, and they include the cost of transportation, all meals, and lodgings in rooms without bath for the specified time outlined. There isn’t space to list these tours in this folder but any railway or tourist agent will gladly outline them to you.

Stop-overs are allowed at the various hotels and chalets upon payment of the regular hotel rate for the stop-over period and if rooms with bath (where they are available) are desired they may be obtained upon payment of the difference in rates.

**Fishing**—In order to maintain the finest kind of trout fishing, the National Park Service and U. S. Bureau of Fisheries operate a fish hatchery at Glacier Park and keep all of the lakes well stocked.

The fly casting rod and artificial fly is the method generally used. No license is necessary within the Park. The limit is 10 fish per day, no fish under seven inches to be taken.

Fishing tackle consisting of rod, reel and line can be rented at Two Medicine, St. Mary, Going-to-the-Sun Chalets, and Glacier Park. Many Glacier, Lake McDonald and Prince of Wales Hotels for 50 cents per day.

**Rowboats**—Available at Many Glacier and Lake McDonald Hotels, at Two Medicine, St. Mary and Going-to-the-Sun Chalets, and at Red Eagle, Gothaunt and Crossley Lake Camps Rate 50c per hour, $2.50 per day.

**Daily Auto Service and Rates**

The Glacier Park Transport Company, a corporation under concession from the United States Department of the Interior, furnishes automobile service during the season. Eleven passenger auto busses are used in this service.

HIGHWAY MAP and GUIDE of MONTANA

NATION-WIDE MAP SERVICE

Copyright by MID-WEST MAP COMPANY, Aurora, Mo.
PROGRESS has been made

Hot, from a blazing sun, cold barren plains swept by icy winds, uncharted and unbeaten trails washed by torrential rains confronted our pioneer travelers.

Today the same conditions of heat and cold remain, but progress has been made. Motor vehicles have replaced the antiquated ox cart and covered wagon and with their advent into the realm of travel, highways have been built to form a veritable spider web throughout our vast continent.

Through the untiring efforts of the Mid-West Map Company these highways have been charted and mapped until maps of all states are now available for everyone.

Maps, during the building of our country would have saved many lives and thousands of dollars; and today, Mid-West Map Company's maps are an indispensable part of the travelers equipment. With them you may tour the entire United States with the same ease and comfort you find in going from your home to your office.

Look for the Blue and Yellow Sign when you leave North Dakota for the same courteous and dependable service is at your command in any other state in the Union. Get your free map of the next state before leaving North Dakota.
Heat, from a blazing sun, cold barren plains swept by icy winds, uncharted and unbeaten trails washed by torrential rains confronted our pioneer travelers.

Today the same conditions of heat and cold remain, but progress has been made. Motor vehicles have replaced the antiquated ox cart and covered wagon and with their advent into the realm of travel, highways have been built to form a veritable spiderweb throughout our vast continent.

Through the untiring efforts of the Mid-West Map Company, these highways have been charted and mapped until maps of all states are now available for everyone.

Maps, during the building of our country, would have saved many lives and thousands of dollars; and today, Mid-West Map Company's maps are an indispensable part of the travelers equipment. With them you may tour the entire United States with the same ease and comfort you find in going from your home to your office.
