doubt will be a death blow to Mrs. Harcourt. I am sure it will be dreadful news to the others, as she is not at all strong it will probably put her in bed again. The general impression seems to be that you will not be out very much longer as we doubt the Court will arrange it in some way as we take those miserable Indians in whom they come.
L.A. John 10th Sep.

My own Darlin' wife,

In the great-Ne.De.

We have had an almost continuous windstorm which has blown the sand through camp in a-acre stripe of cloud, lying and disagreeable. Tonight it has cleared again. And the weather affects different. I have once more paper left to write on and a toy to keep it in word. I have not a good view of the sheet. The sheet has both been dry all day and I don't know how many papers have been killed. I've put them in their coffee and have almost hung up for breakfast. The men have their chairs also. I'll be in town a little later tonight. I'll be all this time. No Indians have been. Some sheets are blown up. We all are glad. Any to be seen, expecting in this circumstances.
Germans. Every one who does see them in this town is very, very much interested in them. I went out last night and saw them off in the other side. They are falling and falling is in front. The wind has been very strong. I am sure. I do not know the weather. It is still very quiet. And it is nearly done. A rain coming down. We have been careful to keep the Cactus Camas and other things up to keep it from the Cactus Daisy. Some of the Cactus Worn is very curious. Shall bring some to plant - also - and some large rose bushes. If we do not have a chance in all of them. I want you to go to the city, to see the city. We believe that we will be ordered to keep this end of the town. I believe that we will be ordered to keep the end of the town. I believe that we will be ordered to keep the end of the town. We are not like those in the North West. They are friendly and we are all at work. There is no double cleft. None was lined by the chase.

If there who shoule lay the wood to dale.

Ben Crooke has not yet been heard from.

It is fairly but not quite time. The papers
still insist that Bernheim has demanded
the amount. It may be so. We also have
heard news from Ben Crooke. Until that matter
has been finally settled as regards the bonds,
there can be no doubt but that he will succeed
now. The newspapers are afire with threats of
being quartered and will fine them to death.

Davis's command has not been heard from
that we know of. This might be entirely
true, but we get no information at all.

Only judge by negative evidence. For instance
I am sure that the land during the week or
preceding 10 days has been very active,
but the land 10-20 miles or farther away
has been very quiet. & there is
so also it is evident that the clouds at & near enough
of the old not at this time - for the
inhabitants have the 2 cases. One exists in Camp
on the R.T. And. not - at this time - in case of absence of their cases.
Wish of my heart today. It is remarkable that this letter, which was all right, but the address was distributed in the wrong case, should not be counted as lost. Occasion was mentioned to me this same circumstance today - this letter going one route and coming out through the creek. Should like hear so much to hear this news in a letter.

At home now to think of fog - here there is not such a thing. There is not moisture enough in the whole of Arizona to make a visible fog. But the area on the Gulf Coast, there is not a thing if water and this County is a desert - being 10 miles away and will not make all east wind into this lake. Please address me on affectionate manner for me. I could not do it myself. My feelings were 

written right here. The next opportunity they should change the day ahead instead of forgetting it. Let me to write thejiramous jiruji. And not make another chance. He would be willing, I know. Whether the head any news or not. The best time thing is

A reply to that — tell him that there
is no Indian war in Virginia and much
less here — only a band of Indians who
have killed a few people and some stock.
Most people have been killed by the
local papers in a month than by the
Indians in five years. The whole opinion
of the people arises from the harry employed
Indians to scalp, instead of she seek
shoulders and cowboys. An American knows
what he can
protected there would have been from the
Indians and more money spent there. Nothing
of this I cannot find a trace of as they all
beguile against him. There is not a paper
published here for a citizen in this territory
that I know of in these that are either
what the friendly Indians turned away to
the Indians to be friendly, but only a few small
men and miners. The Indians of all other
are for plenty of Indians to feed and fight
as in every other new territory.

A thousand and forgetting me.

My dear little wife,

Love as I came just now,

I suppose after this I'll be here in a few days. I go to Solomon's tomorrow night and we start to San Carlos the day after. He and Jack have been in town after the mail today and the not-very-good news, we will not get any mail until it comes all of the sudden. As every thing will then be clear.
