July 12/84 -
My Darling Husband,

Three days since
you left & no letters from you
yet - what does it mean? surely
you have had time to write me
a few words - to let me know
that you were safe & if not, why
not telegraph me? - I am beginning
to feel quite anxious - you know
how worried I am always when
you are away. & I do not hear
from you soon after you leave -
I shall certainly be frantic if
I do not hear soon - I have
moved up on the third floor
when I spoke of before - & Mrs
Dix has the room adjoining - &
there are connecting doors - so that
am as comfortable as can be, &
do not feel very much afraid -
although my sleep is quite broken
& not so good as when I am
with you - all the strangers

have gone excepting Mr Randall
& he will stay until Monday -
visiting friend part of the time
near Milwaukee - I did not
go to my painting yesterday as
I was moving, & felt so badly
but will try & go Tuesday - unless
I feel too badly - I had a letter
yesterday from Lizzie & a little
birthday remembrance, ~~in~~ in the
shape of a nail set - & a little
she says they are all well, & that
Davis & Effie were still quarreling
a little, but it was not amounting to
any thing - & they hoped it would
finally come out all right - she
did not mention anything at home
in general - & said nothing of
Papa - as I imagine things are
going a little smoother - I
shall wait anxiously for a
letter from you in the morning
as they have been around for
the last time today - as I could
not get stamps - & so have not sent
the papers - as I promised but will try
& send the last one this evening.
