Dear Pete:

Enclosed are two copies (one without photographs) of Huxley's report on "Some Observations on the Effect of Water Level on Meadow Vegetation in Northeastern California" which he promised to forward to you this week. It has been reviewed briefly by the Regional Office and I hope it will help you answer some of the questions that are now being raised with respect to meadow problems on the Lassen. We were glad to take the time to get you this information.

Sincerely yours,

M. W. TALBOT, Acting Director

California Forest & Range Exp. Station
330 Giannini Hall
Berkeley, California

Dear Mr. Talbot:

Your letter of July 3rd and Mr. Hormay's report on "Some Observations on the Effect of Water Level on Meadow Vegetation in Northeastern California".

This report has been very instructive and helpful to us in determining our policy on contemplated water storage projects on the Bogard District and we wish to thank Mr. Hormay for his excellent work.

Very truly yours,

P. D. HANSON
Forest Supervisor

Attention Mr. Cronemiller
Range Management

Gentlemen:

We are enclosing a copy of a report titled "Some Observations on the Effect of Water Level on Meadow Vegetation in Northeastern California" prepared by Hormay for Forest Supervisor Hansen of the Lassen Forest. Douthitt briefly reviewed the report on the day it was sent out from this office. I thought you would like to have a copy with photographs for your files and for any future reference.

Very truly yours,

M. W. Talbot
