Bitterbrush Seed Collection

July 24

1942

Designation or Subject

MEMORANDUM FOR A. L. Hornay

Under separate cover, I am sending a package of Bitterbrush seed collected on July 21, 1942 in Section 8, T 22 N, R 13 E, MDM, at an elevation of 4800 feet.

I was unable to clean this seed for you and I was a little late for the collection, as seed had started to drop but I hope that you will get sufficient viable seed from this to serve your purpose.
