STATUS OF REST-ROTATION GRAZING ALLOTMENTS

Supplemental information on each rest-rotation allotment:

1. Is the rest-rotation system in operation? Yes ___ No ___.

2. Date of start of first grazing season 11/1/67.
   (Actual date for allotments under management. Planned date for allotments not yet in operation.)

3. Is the form of management in effect or to be applied the same as the one reviewed or suggested by Mr. Hormay?
   Yes ___ No _____. If not, supply the following information:

   a. Diagram of grazing formula in use or planned.
   b. Map showing pasture layout.
   c. Map diagrams showing movement of livestock between pastures for one grazing cycle.

In cases where rest-rotation grazing has been in effect for one year or more, please comment briefly on the prospects, merits or deficiencies of the system. It is a little too early to fully judge the system, but your comments will be helpful in pointing up future grazing training programs.

Enc. 1
A. Therefore it is hereby agreed that the Upper Cattle Allotment #1A and Community Allotment #2A be combined and divided into 4 pastures and numbers as shown on Attachment #1 and designated as follows: Pasture A - 10 Mile Flat; Pasture B - Scoop Flats; Pasture C - Allen's Dump; and Pasture D - Spencer.

B. A rest rotation grazing system will be started with the 1967 grazing season beginning November 1, 1967, with the following treatments:

1. Graze from April 1 to June 15
2. Graze from November 1 to March 31
3. Graze from November 1 to March 31
4. No grazing

C. The above treatments will be applied to the pastures as follows:

D. The users signed below hereby agree to move livestock promptly (within one week of scheduled date) on the required dates and graze their livestock in the pastures designated on their license each year. Annual billing notice for grazing use will be based on the normal operation set forth in this management plan unless modified pursuant to an application. An application will not be needed unless changes are desired.

** If for some uncontrovertible reason e.g. lack of water, it is not feasible to use a certain pasture, the use may be transferred to another pasture and the grazing system revised accordingly.

** The moving date may be adjusted if for some reason the climate conditions do not allow livestock to be moved on this date.
