Where system, other than continuous, was terminated after a period of use, give reason for termination.

The system was changed as studies showed the allotment could be restocked more. The Desert Tortoise also occupies this allotment. More rest is provided for this species from cattle grazing.

Where system, other than continuous, was terminated after a period of use, give reason for termination.

Grazing pastures were not large enough to support cattle even after inadequate reduction; pastures continued to be overutilized during dry spells. Going to deferred rotation pastures.

Rest-rotation grazing systems used on allotment - Descriptions
