Where system, other than continuous, was terminated after a period of use, give reason for termination.

Rest-rotation was terminated because permission were not able to maintain pastures forever. Also the land use was very difficult for them. Very poor complaints since the system was implemented in the late 1940s.

Where system, other than continuous, was terminated after a period of use, give reason for termination.

The operator had two private pastures in the system but used the hilling percentage to the advantage and failed to follow the grazing manager's. Terminated because he was not taking advantage of the hilling procedures.

Where system, other than continuous, was terminated after a period of use, give reason for termination.

For the past three years we have rented our field so we can build sufficient fences for a prescribed pattern. After the fences are set, we will go back to a different, more federal, rest rotation.
