

**MSU Library Printing Instructions for Windows**

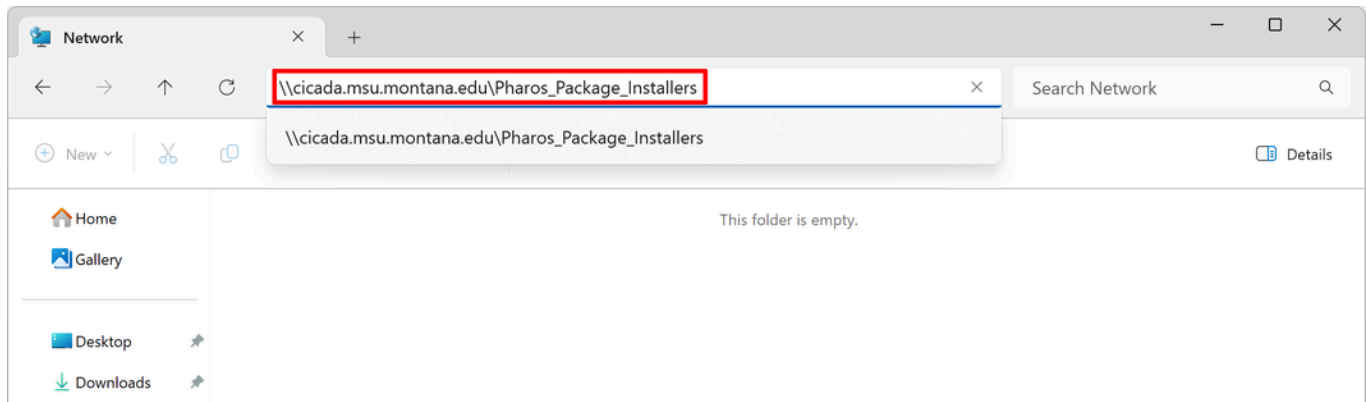

1. Connect to “MSU-Secure” Wi-Fi with **NetID@student.montana.edu** or **NetID@msu.montana.edu** and your **NetID password**.

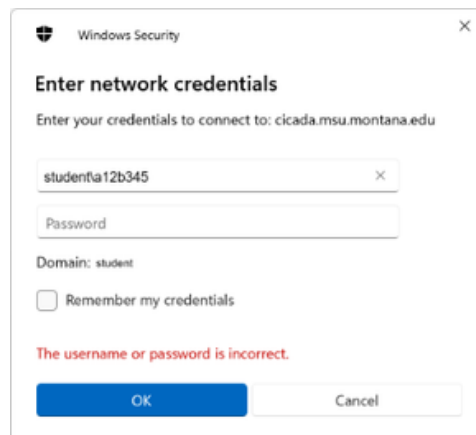

2. Open File Explorer. Click on the blank part of the file address bar.

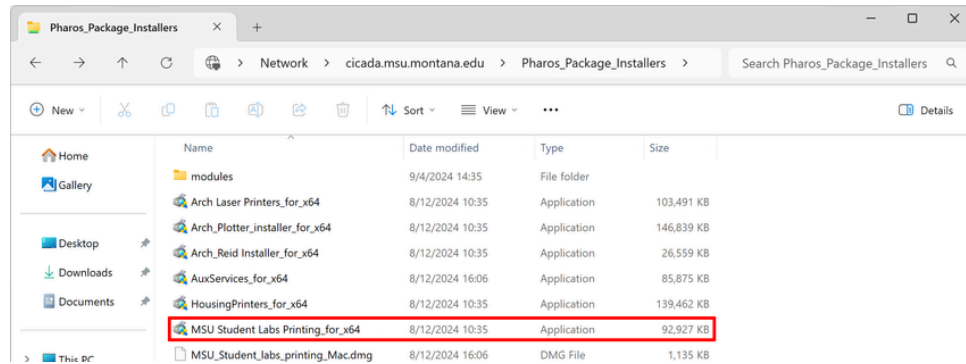

3. In the field, type **\\cicada.msu.montana.edu\Pharos\_Package\_Installers** and press enter.

4. If prompted, enter **student\NetID** or **msu\NetID** and your **NetID password** in the next screen.

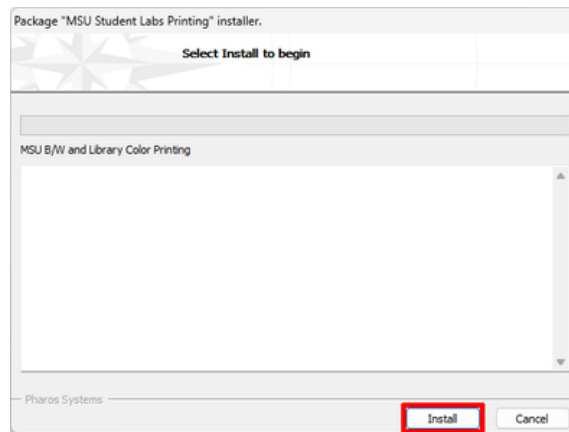

5. The **“Pharos\_Package\_Installers”** folder will open automatically. Select **MSU Student Labs Printing\_for\_x64** file to install the printers.

6. Once the installer opens, click the install in the bottom of the screen and wait for it to complete. Once it completes successfully, click the finish button when it appears.
- a. If you do not see this window, it may have opened in the background. Check for the icon in the taskbar and click it.

**Icon:**

7. You can verify that the printers were added by trying to print a document. Ensure both **MSU B/W Printing** and **Library Color Printers** show up.
